“We need a bone yard we can reach over here. Could someone move the dominoes closer so we can all reach them on this side of the table?” Krulfeld announces, “I’m going to start a Mexican train. That gives people two options.”

Geary says it will take about an hour and the winners will go to the final round which will also take about an hour.

Geary is the event coordinator for five of the NVSO events this year.

“Yesterday we had 30 competitors in the jigsaw puzzle event, a new game this year. “Each person got a picture of their puzzle and the pieces to complete it.”

They had two hours to complete as much of the puzzle as they could. “Seven completed their whole puzzle.”
